Aerovox Launches New Application-Focused Website

New Bedford, MA (January 3, 2011) - Aerovox Corp., a leading manufacturer of capacitors for industrial, medical and specialty applications, announces the launch of its new website at www.aerovox.com. The site offers easy access to Aerovox film capacitors, the broadest range in the industry, as well as its advanced custom design and manufacturing capabilities.

The site provides superior ease-of-use in identifying capacitors for specific applications through organization into an Industrial Products Group, Medical Products Group and Custom Applications Group. Many additional tools assist visitors in selecting the right product for their application, including an interactive Applications Matrix, online catalogs, advanced search capabilities, and comprehensive technical resources.

Aerovox is also the first in the industry to offer online ordering capabilities for selected capacitors using state-of-the-art, secure ecommerce technology.

“We believe this new website will be of significant assistance to our customers and partners, providing accurate and timely data to better enable the selection of the right product in the shortest time. It further underlines our focus on giving our customers *Intelligent Capacitor Solutions*” said Jim Faughnan, President and Chief Executive Officer of the Company.

Aerovox is a leading manufacturer of capacitors for industrial, medical and specialized applications, with world-class design, manufacturing and testing facilities in New Bedford, MA, Global manufacturing facilities in China and India to enable quick turn-around for shipping and delivery worldwide. Aerovox capacitors are among the world’s most reliable components. The company’s extensive custom design and development capabilities coupled with its broad, standardized product offerings allow it to provide intelligent capacitor solutions that meet or exceed customers’ application requirements.
